## Review Card **OVERVIEW**

Increase your Google  
Reviews **GUARANTEED**

**(941) 806-1911**

**Q: *I thought my listing was on Google for free?***

**A:** It is. Google gives everyone a fair playing field to optimize their own listing. Most highly ranked businesses hire agencies to maintain their business listings. The more you put into your listing management, the more you will get out of it.

**Q: *What does the Google Management service include?***

**A:** Optimizing the listing to include showing all the products you offer, the places in which you serve, and the variety of services you offer. In many cases your Google listing will showcase more than your actual website. That's ok, we will keep it active.

**Q: *What is the card and/or stand?***

**A:** A tap card is a specialized card equipped with Near Field Communication (NFC) technology. It enables users to simply tap the card against an NFC-enabled device, like a smartphone, to initiate specific actions or interactions. Their purpose is to streamline the process of leaving Google reviews. When customers tap the card on a compatible device, they can conveniently access the review submission page and share their feedback effortlessly.

**Q: *Does it work with Android and Apple devices?***

**A:** Yes! Tap cards are compatible with Android and Apple devices that support NFC technology. Many Android smartphones and iPhones have built-in NFC capabilities.

**Q: *Can you assist me with my website too?***

**A:** Sure. We have over 25 years building website that truly rank well.

**Q: *Is there additional cost for customer service support?***

**A:** Nope.

***Custom tapcards are available as cards, with lanyards, or as counter stands!***
